Inhalation:	No first aid should be needed. If irritation occurs or symptoms develop, get medical attention.
Skin Contact:	Wash skin with soap and water. If irritation develops and persists, get medical attention.
Eye Contact:	Immediately flush eyes with water while lifting the upper and lower lids. Get medical attention if irritation persists.
Ingestion:	Rinse mouth with water. Do not induce vomiting unless directed to do so by medical personnel. Never give anything by mouth to a person who is unconscious or convulsing. Get medical attention if symptoms develop.

#### Most Important symptoms and effects, both acute and delayed:

May cause mild eye and skin irritation. Ingestion may cause gastrointestinal distress. Inhalation of mists may cause upper respiratory tract irritation.

#### Indication of any immediate medical attention and special treatment needed:

Immediate medical attention is not generally required.

### Section 5 - Fire Fighting Measures

#### Extinguishing Media:

Use carbon dioxide, dry chemical, foam, or water fog.

## SAFETY DATA SHEET

### Special Hazards Arising from the Substance or Mixture:
